To investigate the effect of Helicobacter pylori (Hp) infection prevalence and its treatment on the incidence of gastric cancer (GC). According to the high and low prevalence of Hp, the population of the north, central and south of China was divided into 4 groups. The incidence and 5-year survival of GC were analyzed in each group. The incidence of GC in 4 groups ranged from 22.9/100,000 to 9.3/100,000. The 5-year survival rates of the patients were 84.4%, 92.9%, 92.6% and 95.5% respectively (P Syd's Well Syd's Well is an historic well located at the intersection of Pennsylvania Avenue and 7th Street in Augusta, Georgia. In the early 20th century, "the most expensive and elaborate drinking fountain was built in the world." After installation, the residents of the city petitioned Augusta's Board of Commissioners to keep the fountain and the water was set free to the public on May 29, 1909. The current fountain, built in 1941 by the U.S. Treasury Department in Portland, Oregon, has become a well-known example
