While looking for an answer I found out that I can modify the model manually, so I did so. But the same error occurs. This is my model: class Assignment(models.Model): assignment_name = models.CharField(max_length=100) assignment_date = models.DateTimeField() assignment_duration = models.DurationField() assignment_description = models.TextField(blank=True) assignment_type = models.CharField(max_length=50) assignment_school = models.CharField(max_length=50) assignment_campus = models.CharField(max_length=50) assignment_semester = models.CharField(max_length=50) assignment_degree = models.CharField(max_length=50) assignment_year = models.CharField(max_length=50) assignment_instructor_staff = models.CharField(max_length=50) assignment_student_staff = models.CharField(max_length=50 2d92ce491b
