duties of assistant registrar in high court assistant registrar in the high court Mar 1, 2004 RESPONSIBILITIES & DUTIES. Assistant Registrar in Supreme Court shall provide administrative and judicial support to the Registrar. Assistant Registrar in the

Supreme Court shall . List of Administrative Officials in SC List of Deputy

Administrative Officials in SC Sr. No. Category:Court Administration in IndiaQ:

sorting the dates and then convert the datetime to a timestamp in SQL Server 2012 I

have a table which has a column Date & Time of type DateTime in a SQL Server

2012 database. My requirement is to retrieve the rows based on date order from the

database. So, the order by date order may be something like 31-MAY-16

10:00:00.000 31-MAY-16 11:00:00.000 30-APR-16 10:00:00.000 30-APR-16

11:00:00.000 19-FEB-17 10:00:00.000 19-FEB-17 11:00:00.000 18-FEB-16

10:00:00.000 18-FEB-16 11:00:00.000 . . . etc. so, can anybody please tell me how

to get the result based on the above-mentioned dates order. A: You can use DatePart

and Concat to get a date only that you can then order by: SELECT Concat(DatePart(y

yyy,YourDateColumn),'-',Month(YourDateColumn),'-',Day(YourDateColumn),'',Co

nvert(varchar(20),YourDateColumn,100)) FROM YourTable WHERE

YourDateColumn > DATEADD(day,1,GETDATE()) ORDER BY YourDateColumn

This can obviously be made more dynamic with some way of creating a DateID

column. Also note that the above will only work for the years 2000-2099, if you want

to cover the other 150+ years in the range then the syntax would need to be: SELECT

Concat(DatePart(yyyy,YourDateColumn),'-',Month(YourDateColumn),'-',Day(Your

Date
