[Download](#)

A: The problem is not with the Vray Adv 30003 Max2014 64 bit download, but with your installation, which is trying to use the wrong version of the

Vray Adv 30003 Max2014 X64.exe file. In order to fix this, you will need to rename the Vray Adv 30003 Max2014 X64.exe file (and the associated installer files) and then re-install the Vray Adv 30003 Max2014 X64 64 bit download. The installer will detect that it is being re-installed and will then use the correct version of the Vray Adv 30003 Max2014 X64 32-bit installer. .D.:

Department of Population and Community Medicine, Division of General Internal Medicine, Queen's University. The data from this study are available from the corresponding author upon reasonable request. The ethics boards of the Queen's University Health Sciences & Affiliated Teaching Hospitals Research Ethics Board approved this study protocol. All participants provided

written informed consent. Not applicable. Q: Efficient way to get a list of IDs from the Database in python I am working on a project where I have to get the list of IDs from the database, along with some other columns from the database. The table is 100k+. I have written the below piece of code for this :-

```
ID =  
MyDB.cursor().execute("select  
ID from
```

TableName").fetchall() ID is list but as the database is big, it takes a lot of time for fetching. Is there any other efficient way to do this? A: Use a SQLAlchemy
