Black Ops 2: Win No Steam Error Fix Fixing the issues with Black Ops 2: Win No Steam Error in the best possible way. The issues with Black Ops 2: Win No Steam Error seems to be fixed. This tutorial will cover how to fix this issue and play Black Ops 2 without any problems. Error [WinNoSteam]: Steam has stopped working The PC version of Call of Duty Black Ops I has stopped working. I'm getting an error of [WinNoSteam] Oct 17, 2017 you must launch the game from Steam or it will never start. so i did that and i had the same problem as it would say i needed to update steam and it never told me to update it or something. the solution is: to right click the game and select "Change settings" and then change the settings for the "exception" to "Steam". Jun 12, 2016 My Call of Duty Black Ops won't run and gives me "Steam must be running to play this game" error. Nov 21, 2017 I tried to play Black Ops II but it got stuck on the steam logo and just stayed there forever. A: It's usually the steam client. It's very easy to fix, open the Steam application and go to Options > Downloads and make sure it's not selected for the automatic update. But if that doesn't help, you might want to consider installing Steam separately. If you are using Windows 7, check the User Account Control settings: Start > Settings > Control Panel > User Accounts > Manage my PC > User Accounts > Local Accounts. Make sure that they are NOT the administrators. If you are using Windows 8.x, look for the User Accounts settings. In the local account section, make sure they are not the administrators. If you are using Windows 10, you can go to the Control Panel and open the User Accounts settings. If 2d92ce491b
