When you preview a slideshow in PowerPoint and wish to get the same layout in other slideshows, you can use Slide Linker to create linked slides. This add-in helps you to quickly copy & paste slides. With it you can simply select the slides you want to use in your next presentation, link them, then go to another presentation and you will get the same layout. Start Slide Linker by clicking the Slide Linker icon on the slide you want to link, selecting linked slide or group, changing the slide or group to the current slide or group, and pressing the Copy+ button. You can set either the number of slides you want to copy (slides number, groups, pictures, diagrams, charts and so on), or the number of slides for slide-sets (each slide) or just a specific slide. With Slide Linker you can choose the layout for linked slides. You can choose the same layout as on the current slides, or a new layout. The effect of the new layout is applied automatically when saving, when linked slides and/or groups are saved. The easy way to add, resize, move or delete the text boxes, pictures and charts in linked slides is also possible. You can specify which steps of the linked slides should be used, and disable the Delete pictures if you wish to. Slide Linker can also be used for copying slides. You can choose the slide layout to be used, and also copy one, two, many slides or groups. Key features: Design your own layouts for slide-sets linked with Slide Linker. Duplicate slides, groups or slide-sets easily, with any of the layouts you want. Insert slides, groups or slide-sets in the same places, in new layouts, or in the current layout. Copy slides, groups, slide-sets or pictures from one layout to another. Replace images in slides and/or groups. Reorder slides, groups or pictures. Insert pictures in slides and/or groups.
