## GOE Video MX Std [32/64bit]

The company "Video Converter" does not own and is not affiliated with the copyright owner. GOE Video MX Std does not store the data on your computer, it uses the data stored on the memory of your computer. The free version of the software has certain limitations. 1. GoE Video MX Std can record video, MP3, CD, DVD, etc., with high quality. 2. GOE Video MX Std can convert video to MP3, DVD, MPEG, VOB, AVCHD, WMV, MOV, MKV,... 3. GoE Video MX Std is easy to use, without any special skills. 4. GOE Video MX Std can display the menu in different languages, so you can enjoy it. 5. GOE Video MX Std has a flexible and powerful function. It can record, convert, upload, edit, and playback the files of any format, such as MP3, MP4, MKV, MKA, MP2, MPG, MOV, M4V, VOB, AVI, ASF, WMV, 3GP, MOD, WAV, FLAC, AAC, OGG, AAC, OGG, AC3, AC3, DTS, AIFF, AAC, DTS, OGG, MP4, MP3, etc. With the latest version, the software supports the most common formats and methods. It is the world's first video editing software with large capacity. For now, this software supports five sources simultaneously, and there are ten editing modes. It can support a large-capacity cache file, make it possible to record and play video at the same time, and be operated. GOE Video MX Std is the world's first software which can record, play and edit simultaneously and operate video at the same time. In addition, it supports the next sources: 1. Support multi-format-plugins (MPEG, MOD, MKV, etc.) 2. Support multi-channel-plugins (AVI, MP3, OGG, FLAC, AAC, etc.) 3. Support preview for each source 4. Support preview for each source at the same time 5. Support multi-play-lists 6. Support playback for multiple playback file 7. Support high-definition video output(1080p HDTV, 720p HDTV, etc.) 8

## What's New in the GOE Video MX Std?

GOE Video MX Std is a professional piece of software developed to provide you with an efficient means of performing recording and editing operations on multiple sources at once, with a minimal level of effort for you. Multi-panel interface The main window offers five different preview panels, where you can load the different source channels, allowing you to play, stop, adjust the volume or switch between them in just a few clicks. The lower part of the screen displays the main video, enabling you to apply various effects on the surface of the movie, like captions or freehand drawing. Record and edit videos For starters, you will need to load the movies for the five available channels, which can be done by pressing on the 'Sources' menu and selecting the preferred slot. You will then be able to opt between 'File' (locally stored) or 'Equipment' (audio and video capture devices). After loading the sources, you can resort to the 'View' menu that lets you work with several features, specifically 'Title Caption', 'Play Picture', 'Overlay Video' and 'Draw on Video', whichever you may happen to need. The 'Title Caption' function allows you to type a word or phrase that you wish to display on the surface of the movie, with the possibility of deciding the font, size, color, animation type and other effects (shadow, bold, italic, underline, strikeout, etc). You can also preview the caption and choose a preferred position on the screen. The 'Play Picture' component is meant to help you load an image or an entire directory of photos and display them in sequence, being able to set the 'Persist Time'. With the 'Overlay Video' feature, you can create picture-in-picture effects, by loading one or more movies in the slots, while the 'Draw on Video' tool lets you doodle on the image. Handy video recorder and broadcasting program To conclude, GOE Video MX Std is an efficient utility, and though it is slightly prone to runtime errors or responsiveness issues, it is meant to serve in capturing and editing movies, enabling you to broadcast them. Description: GOE Video MX Std is a professional piece of software developed to provide you with an efficient means of performing recording and editing operations on multiple sources at once, with a minimal level of effort for you
