Stardust Screen Saver 4.5.5, the newest version of our award-winning screen saver authoring software, provides everything you need to

What's New In Stardust Screen Saver Toolkit?

Stardust Screen Saver Toolkit 4.5 features an updated codebase to better support Windows 10 and Windows 10 mobile devices. As with previous versions, our goal is to provide the same product to users of Windows XP, Windows 7 and Windows 8.1. The updated codebase has been thoroughly tested on each platform to ensure compatibility with the latest versions of Windows. The main new feature of this version of Stardust Screen Saver Toolkit is that we provide updated codebase for Windows 10 and Windows 10 Mobile. Features in Windows 10 Mobile include: support for photos and videos, better touch support, support for Secure Boot, and support for notifications on both Start Screen and lock screen. Users of Windows 10 Mobile can download Stardust Screen Saver Toolkit to create a unique and compelling touchscreen experience in seconds. Stardust Screen Saver Toolkit for Windows 10 provides some additional features, such as: larger, more flexible image support, improved software updater, richer export options, and additional installer templates. Description: Stardust Screen Saver Toolkit is the easy to use software program that makes it possible to create professional-quality screen savers that you can sell and distribute without any programming knowledge. Any sounds, videos, images or animations can be included. Simply drag-and-drop them into the main window and you are ready to go. Your screen saver will be displayed to your users, who will see what you see. You can attach captions and Internet links to images, and create a Web Saver that allows you to package any URL as a screen saver. Your screen savers can be distributed via the Internet, or on compact disks, floppy disks or 3.5" floppy diskettes. Absolutely no programming is required! -Converts any media into a dynamic screen saver in minutes, even if you have no programming skills-Drag-and-drop sound, video, animation, or image files onto the main window.
