The license provides the rights that the user has to the application and the user's operating system. Each user also has their own workspace, which is a place on the user's computer, from which they can work. When AutoCAD is installed, it is installed in the default folder: C:\Program Files (x86)\Autodesk\AutoCAD\[edition] Where [edition] is either R2019 or R2019 (ex: C:\Program Files (x86)\Autodesk\AutoCAD\R2019) If the installation is customized, a folder is created in the root of the computer, instead of C:\Program Files (x86)\Autodesk\AutoCAD\[edition].
