
Attack On Titan Season 1 Episode125 English Dubbed EXCLUSIVE

Pokemon Sun and Moon (Dub) Episode 125 English Dubbed at gogonime. Category: TV Series, Anime info: Pokemon Sun and Moon (Dub). Show 1 Comment Q: What causes the "Incorrect syntax near the keyword 'SELECT'" error? I am very new to MYSQL queries. I am learning and keep getting this error as shown below #Error: Incorrect syntax near the keyword 'SELECT'. SELECT * FROM wp_4_enhanced_footer_default wp_4_enhanced_footer_default WHERE wp_4_enhanced_footer_default.ID=2' AND wp_4_enhanced_footer_default.post_type = 'post' AND wp_4_enhanced_footer_default.post_parent = 2'; Could someone please point me in the right direction in resolving this? I am working on learning from Learn SQL The Relay Guide. The above page has been copied from the site and I am trying to work on using PHP code and mysql connection to create a new post in the database. If I can get the response on one query I can manage the other. A: First, is the error message correct? Second, because you've included the table name within a backtick, you need to escape it to prevent MySQL from auto-quoting it. Third, your WHERE clauses are unnecessary because the table name, ID and type are all implicitly part of the SELECT clause, and the query is already within a string enclosed by single quotes, meaning there is no need to single quote it. So, in my example below, it would be more compact to use LIKE... and you don't need to use an AND because you're within a single WHERE clause. Fourth, you're mixing deprecated (SQL Server) and newer (MySQL) syntax. If you change your connection string, that may be one reason for your error. Also, the example assumes that a Footer is being created
