In the google or yahoo search box type: "autocad crack serial code v9" or.I have free and full crack for autocad 2015 for all versions and version 2010 activation code.Q: how to make a factory function that returns a function I have a factory class that returns a function. Is it possible to create it in a way that the constructor of the factory class doesn't access any global variables? Can I use a macro, or functions? I'm trying to mimic this code in Rust: pub trait Setter { fn new_setter(func: fn(Any, fn(Any))) -> Setter; } impl Setter for fn(f: &fn(Any, fn(Any))) -> bool { return f; } A: Simple Answer: There are no macro's in Rust. The trick is to use another function to infer the "type". For example: struct MySetter { func: fn(Any, fn(Any)), set: fn(Any, fn(Any), &mut ()) } impl MySetter { fn new_setter(func: fn(Any, fn(Any))) -> Setter { Setter { func, set } } } Marcellus Shale Live Chat August 6, 2018, 6:00 PM - 9:00 PM Marcellus Shale Live Chat Join us for a no-pressure, community-style event that gives you and your members a chance to ask questions about the Marcellus Shale.
