XFlip Enterprise Crack + With License Code PC/Windows

XFlip Enterprise is a powerful and easy-to-use application that turns PDF files into custom flip books within minutes. The software makes it possible to create, view, and share interactive and gorgeous flip books on the web with the flexibility of multiple device views. With XFlip Enterprise you can create high quality flipbooks using multiple themes and design styles to ensure you choose the right book for your website and customers. How to Create Flip Books with PDF: There are various ways to do this if you have Adobe Acrobat and Adobe Reader installed on your

computer. Firstly, open up your PDF document and save it as a zip file using any other software that can do so. After you do this, upload the file to your XFlip Enterprise account which is free and simple to do (you can visit XFlip Enterprise web site to know more about the free trial and offer). Lastly, you can flip the PDF by clicking on the Create Flip Book button which will take you to the Publish page. There you can choose a theme, font, select any text you want to appear in the flipbook and the page order you want to display. With the help of XFlip Flip Book Creator you can easily create and export your PDF publications to your web site or publish them to Flipbook.com. With FLIP Power, you can create professional and beautiful flip books with ease. How to Create FLIP PRINT PDF: FLIP Power is a useful tool that enables you to create high quality eBook style e-books that flip into a book format when you double-click the document and display it on the browser or mobile device. The included software makes it extremely easy to add pictures, videos and Flash files to the publications so you can easily share them online or publish them on any of the flipbook online stores. FEATURES: Create ebook style flip books: - export your PDF publications to a MobiBook zip file. - add any kind of media files to the publication. - you can add your own text or pictures to the publication (you can change the theme and design style you choose). - add watermarks to the publication. Create your own grid/landscape: - create any number of pages inside the publication - choose from existing themes and design styles or use your own images, fonts and colors. - keep the margin of each page and the background color. View flipping books: - flip pages or display the entire publication in the default
