During gameplay, the system shows players' movements and body direction on-screen. The motion capture data ensures realistic ball movement in all situations, tracking the power of the players during the game and showing ball speed, final shots and goal shots on-screen. For goalkeepers, FIFA 22 introduces a "pointing system" that analyses the player's movements and shows where they are facing and where they are looking. The information is displayed on-screen as graphic prompts, which helps the goalkeeper make decisions about where to look and when to make movements. Additional game content and features will be revealed during a FIFA 20 FIFA Ultimate Team Masterclass livestreamed on January 24, 2018 at 9pm CEST. More information about the livestream will be shared soon. Loading In a press release FIFA maker EA Sports gave more details on a behind-the-scenes look at FIFA 22, including what to expect of the new game's motion capture, and how it will allow the game to handle head and neck models on players. FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. Think of FIFA as the basketball of soccer. Like basketball, the ultimate objective of the game is to score: to get a 'shot' at goal. Unlike basketball, FIFA 20 will put its explosive new 1-on-1 Combat Create system, which allows you to make things happen off the ball, into your hands. As well as that, EA SPORTS FIFA 20 introduces an all-new Battle Mode that puts you on the pitch to manage and shape your gameplay. Meet FIFA Team In FIFA 21, the 14 Official National Teams of the world's best leagues are represented, with all new national colors and a new FIFA Team page for each. These give each of the teams their unique look and feel, and allow you to easily shop by country, league, or club. Beyond that, for the first time, you will also be able to try a new look FIFA Team Manager before you choose to represent your country, building a custom team with your favorite players and new kits. This year, FIFA teams have been reimagined - from visual changes and new superstars to new captain, kits, and contracts. The Soccer Legend App, for the first time, will power the approach to the way you play, manage, and celebrate in FIFA. It will add a whole new social aspect to your game - including special fans, collectibles, and content in FIFA Ultimate Team. Players, Equipment, and Tactics We've got some of the best players in the world, and you'll be able to build your dream teams of the game's biggest stars. From Neymar to Xherdan Shaqiri, Cristiano Ronaldo to Sadio Mane, Brazil's Neymar and Croatia's Luka Modric, you'll see every star in FIFA. From iconic players like David Beckham, Thierry Henry, and Steven Gerrard to fresh faces such as David Alaba, Javier Mascherano, Marco Verratti, and Luka Modric, we've got a wide range of star power. You can add and update your digital team roster in FIFA Ultimate Team and, for the first time, try to emulate the FIFA 21 experience by signing and collecting players and playing up to three games with any team at any time in the app. Some of the biggest names in football are included as well as characters from the FIFA 20 animated series, like Javier Hernández

System Requirements:

Most games require an Intel i5 or an AMD Phenom. We recommend having a minimum of 8 GB RAM for best playability A DirectX 11 video card is a recommended minimum. A video card with at least 2 GB dedicated video

RAM (VRAM) is a recommended minimum. It's hard to believe that it's been almost 2 years since Blizzard released World of Warcraft in Europe, yet it seems like yesterday. We're already half way through 2014, so it's time to take a look back at some of the best games
