Comment cataclysm dda graphics mod 6-Dec-2008, 19:58 Whenever I attempt to make or load a new world with Cataclysm++ in the mod. Graphics Version: Tiles; Mods loaded: [Dark Days Ahead [dda], Disable NPCÂ . Comments rst1330 21-Dec-2008, 03:43 That is cool and I love KSP modding but, do you know if there is a mod which allows you to play with screenshots from the game(so you could get a feel of the game through the graphics, audio etc.)Q: IIS 7.5 error - What's the difference between Physical Path and Physical Path on a Windows 2008 R2 VM vs Win 2012 R2 Server? I'm unable to copy a file to the C:\inetpub\wwwroot\ directory on a Windows Server 2012 VM. My application should read the file located in the same directory and if there are no files in the directory, then it should go to the web root directory. The source of the file is located in my Windows 7 PC's C: drive and I'm able to copy this file to the directory on my Windows Server 2012 R2 Server. I'm getting the following error when I try to copy this file from my Windows 7 PC: Error - System.IO.IOException: The process cannot access the file because it is being used by another process. I tried rebooting my Windows 7 PC but this didn't fix the problem. Now when I try to copy the file from the Windows Server 2012 R2 Server, I get the following error: Error - System.IO.IOException: The process cannot access the file because it is being used by another process. Here is a screenshot of the application's properties, I'm not sure if I will be able to identify what's happening here: Then, to test the problem on a Windows 8 machine, I've copied the file from my Windows 7 PC into the Windows 8 machine and got the same error. From the logs, it seems that a task is running on the source file. Towards the end of the error log, it's found that the error is coming because of the ownership of the files and the ownership is different on the machines. The source file is having the owner of the Windows 7 PC, which is the login I'm logged in with. However
