

FACILITIES

ROYAL KING PALACE

Royal King Palace

SUITE ALL YOUR NEED.

The design for our luxurious lobby/reception room was inspired by some of the world's top five-star hotels and features an impressive and beautifully decorated large foyer, making it the perfect venue for hundreds of guests to mingle comfortably. One of the banquet hall's greatest attributes is that it's all on one level, so there are no stairs or elevators to maneuver, making it accessible to all of your guests, especially the elderly and the handicapped.

The **Royal King Palace** and Convention Centre consists of a large and elegant ballroom, which can be divided into two smaller sound-proof rooms and offers fixed seating for more than 1,300 guests.

Meanwhile, we provide ample parking for all of your guests. Our professional in-house staff has the flexibility to cater to your entire event. We offer world-class service and "white glove" service by assisting you in designing all the details of your special occasion.

Feel free to arrange a tour of our venue so that we can take the time to discuss some of the specialty services we can arrange for you.

Our in-house audiovisual company provides audio-visual equipment and technicians, including eight projection screens, state-of-the-art nightclub lighting, a DJ, and much more.
